

24 Cell Basic Kit

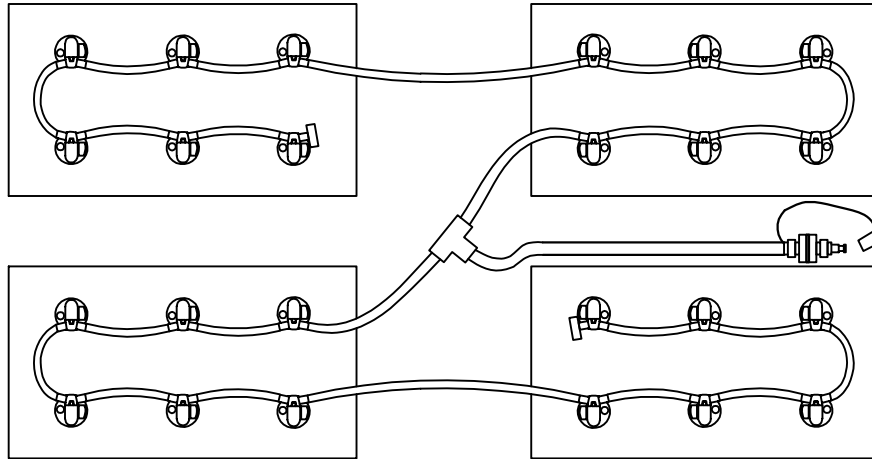

Rev.0 7-13-11

(FOR 8D & 4D Batteries)

Part # CK2400TB5

This is a guide to assembling a basic 24 cell kit. The diagram below is a common 24 cell configuration. Make sure all hoses clear battery cables and all obstructions. Always water battery after charging is complete. Please make sure all valves are fully inserted into cells.

VC-TB5

Part #	Description	Quantity
VC-TB5	Low Profile valve	24
08TUB6K	1/4" Tubing	21 ft.
08T666N	666 T piece	3
09BDCAP	Dust Cap	1
09MBLU1	1/4" Male Connector	1
08CAP6	End Cap	4
L#7786	3"x4" Battery Filler Instructions	1

Operation instructions:

Please water batteries after charge, on a flat surface and do not leave unattended

Connect the Delivery system (2 1/2 gallon tank, direct fill link, or direct fill gun) to single point on kit. Insert male quick connect into female to start water flow. When flow indicator stops spinning or all indicator eyes come to top of the valve, disconnect the quick connect.

Always disconnect from water source after filling
